### Disclaimer:

This infrastructure assessment report has been prepared by IMBE to provide the Early Childhood Development (ECD) centre owner with an independent evaluation of the current condition of their facility. The information contained herein reflects observations and assessments made during the IMBE site survey and this information is intended to identify areas that may require attention to enhance the safety and functionality of the ECD centre.

It is important to note that this report is based on visual inspections and information available at the time of the assessment. IMBE does not perform destructive testing or invasive investigations; therefore, certain deficiencies or issues may not have been apparent during the assessment. The findings and recommendations provided in this report are for informational purposes only, and should not be construed as a comprehensive diagnosis of all potential issues.

This report does not serve as a certification, warranty, or guarantee of the ECD centre's condition, its registration readiness or its compliance with any regulatory requirements. IMBE shall not be held liable for any damages, losses, or claims arising from the use of this report or reliance on the information contained herein. Owners are strongly encouraged to consult with qualified professionals for any works they deem necessary.
